Tuggerah Dentist Keeps Patients Smiling

At Bluewater Dental, we provide affordable, high-quality preventative care to help you keep your smile healthy and strong. The whole family benefits from our exceptional treatment.

Dental Health for Every Budget

If you'd like to save on your dental bill, you're in luck. Patients with health plans have no out-of-pocket costs for preventative care, including your regular checkup, clean, and X-ray.*

WE ACCEPT ALL HEALTH FUNDS.

We're a preferred provider for CBHS and NIB with HICAPS for same-day rebates. We also partner with Smile.com.au. Eligible families can access the Child Dental Benefits Schedule. We accept DVA Cards. New patients can use CCLHD hospital vouchers at our practice.

Take Charge of Your Oral Health at Bluewater Dental

If you think quality dental care is out of reach, you're in for a wonderful surprise. At Bluewater Dental, we believe excellent oral health should be for everyone, not just an elite few. Dr Aditya Midha and Dr Kishan Keshwara, along with their skilled and compassionate dental team, provide superior treatment at an affordable price, helping you bring better dental health to the whole family.

We're passionate about connecting more people with preventative care. We'd rather help you maintain a healthy smile long term than wait until problems have become severe to begin treatment. By making regular checkups, cleans, and treatment doable, we empower you to revitalise your smile, one tooth at a time.

Meet Our Caring Dentists

For our dentists at Bluewater Dental, oral health care isn't just a job—it's a passion. Dr Aditya Midha offers over 18 years of experience in oral surgery, implantology, and family-focused care, while Dr Kishan Keshwara brings a gentle, thorough approach with special expertise in crowns, bridges, and implants. Together, they provide comprehensive dental solutions, from general checkups and cleans to cosmetic dentistry, crowns, bridges, and implants. While we love equipping our patients to prevent dental problems, we can also help restore your oral health if you need treatment.

Instead of expecting you to take our word for it, we carefully explain your condition and show you what we're seeing in X-rays or pictures, so you can make key dental decisions for yourself. With a foundation of transparency and clear communication, we build relationships of mutual respect as we work together for a brighter smile.

Conservative Care You Can Trust

We're here to help you keep your smile, not replace it. Our dentists always choose the most conservative care possible, while also considering your long-term picture. We won't rush to recommend extractions and implants if we can save your tooth with a less invasive procedure, like a filling or crown.

At the same time, we'll let you know when we think a tooth is too broken down for a filling. Your long-term prognosis is just as important to remember. We'll carefully evaluate the options and talk with you about the pros and cons of each treatment, so you know which route is best for you.

Friendly Treatment for the Whole Family

There's nothing we love better than serving individuals, couples, and entire families with excellent dental care. We work with both adults and children, whether you need basic checkups and the occasional filling, or you want to improve your smile with aesthetic options like crowns and veneers.

Our office combines a sleek modern look with a warm family atmosphere. We make you feel important, while our friendly staff helps you enjoy a professional experience of care.
